PROGRAM DETAILS:

Risk Awareness: A healthy way to assessing and managing risks in Computer System Lifecyle

Risk awareness is an essential aspect of assessing and managing risks in the computer system lifecycle. It involves developing a culture of identifying and mitigating risks at every stage of the system's development, deployment, and operation.

By implementing healthy risk awareness practices, organizations can better assess and manage risks throughout the computer system lifecycle. This leads to more secure and reliable systems, which in turn can help to minimize the potential for downtime, and other compliance incidents.

In this 'workshop' style event, attendees will discuss and learn from expert instructors and other attendees how to approach the four phases in a computer system lifecycle, with a risk-based mentality, to guide appropriate and efficient computer system validation requirements.

AGENDA:

4:30 pm Arrival, Networking, and Tours at Landmark Bio
- Includes food and beverages (*one drink ticket will be provided to each attendee*)

5:30 pm Presentation with Roundtables
- Presenter: Geetanjali "Geetu" Abbi, Director, Digital Quality Assurance, Alkermes

7:15 pm Presentation concludes, and group moves to City Works
- Join us for the optional inaugural GAMP Boston COP social with self-sponsored food & drinks

REGISTRATION IS NOW OPEN ONLINE AT:
www.ISPEBoston.org/Events.

SPEAKER BIO:

Geetanjali "Geetu" Abbi, Director, Digital Quality Assurance, Alkermes

Geetu is a pragmatic leader and a champion in Computer System Validation & Compliance with more than 16 years of experience. Geetu graduated from DIT university in India in 2002 with a degree in Information Technology. From the beginning she was more curious on the quality aspect of the software and started her journey as Testing Lead and transitioned to a career in CS Validation. Throughout her career she has accomplished numerous projects in areas ranging from manufacturing, quality systems, clinical, Information Technology and Labs. Today, she leads a global team and heads Digital Quality Assurance at Alkermes. She is a big proponent of continuous learning and improvement and challenges herself and her team, to think outside the box and develop effective risk-based strategies that fits systems of all facets.

Oh, and Geetu loves outdoors. Why does that matter? Well, it means that she spends most of her summer afternoons either gardening or doing outdoor activities with family. She has 2 kids and maintains the title of the best Mom by being a bit mischievous, witty and a little cheeky.
