### Support our first ever virtual conference!

Thank you for considering a sponsorship at the ISPE Boston Area Chapter Fall Educational Summit! This will be the Chapter's first ever virtual conference and it will take place throughout the month of October.

The goal for this event is to offer educational sessions that would have normally been presented at the Annual Product Show, initially scheduled for September. The Chapter's Product Show committee and Educational Programs committee have been hard at work reformulating these sessions for the virtual education space and are excited to bring you a new way to learn about industry topics and connect with colleagues both new and old.

Since April, the ISPE Boston Area Chapter has held a number of educational webinars and has been pleased to see higher than usual attendance as well as more diverse attendance, since virtual education allows industry professionals from all over the world to tune in. This may be an opportunity to get your company name in front of potential customers that would not normally be able to attend the Product Show.

We have carefully prepared a list of opportunities to provide your company with maximum exposure both in pre-conference marketing and online during the conference.

We look forward to developing our relationship, and remember to register now to take advantage of the most influential sponsorships!

Sponsorship & virtual advertising opportunities are now open and are expected to sell out! Do not delay if interested in participating!
